<i>Al Arabiya</i>	Hezbollah and the gullible Arabs "...I have no doubt that if Hezbollah threatens Israel's existence, then Israel can destroy the entire Lebanon, not just Hezbollah, through its intelligence and military power and capability to influence superpowers. Israel's security and survival is unquestionable, not just for the Americans but for all superpowers. Arabs, who are especially gullible, have not learnt anything from the history of fake leaders who used the Palestinian cause as an excuse to serve their greed and domination. An example of these leaders is Saddam Hussein and Gamal Abdel Nasser. Now there is Hassan Nasrallah, and behind them the Iranian regime. All of them exploited the Palestinian cause to achieve their aims. Most Arabs believe the same lie uttered by deceitful leaders. The most recent is the liar and terrorist Hassan Nasrallah, and I don't think he will be the last."	MOHAMMED AL SHAIKH

 - Stories by wire agencies and major newspapers (ex: AP, Reuters, NY Times etc.) often are licensed or sold to smaller market media agencies, and appear in the survey ONLY in their original
