<i>The Washington Post</i>	Putin is outplaying Trump in the Middle East In Ankara, alongside Erdogan, Putin capitalized on disquiet over Trump's move to recognize Jerusalem as Israel's capital. Protesters’ anger is about more than fury with Mr. Trump. It is about their leaders’ multiple policy failures. Arab leaders need to be seen as being on the right side of public opinion while not rocking the boat. If there is a silver lining in Mr. Trump’s move, it may be Arab leaders’ need to bridge the gap between public perception and their survival instinct. - The Israel Foreign Media Survey scours the internet (Sunday thru Thursday) for pertinent news articles and editorials affecting Israel appearing in the world's major newspapers and websites for the particular day(s) stated.
- The survey attempts to present only original source articles, occasionally resorting to reprints in special cases.
 - Stories by wire agencies and major newspapers (ex: AP, Reuters, NY Times etc.) often are licensed or sold to smaller market media agencies, and appear in the survey in their original with other publications in parentheses.
